

DATA SCIENCE

# Machine Learning For All With Python

## Course Outline

Instructor

**Rashedul Alam Shakil**

**B. Sc. in Computer Science & Engineering**

**Founder, aiQuest & Study Mart**

**Email: [hq@aiQuest.org](mailto:hq@aiQuest.org)**

STUDY MART

Course Provider

**aiQuest.org**

Mob: 01757260272

## Benefits

Have a look ->

Teach Basic Python & Strongly Focus on Mathematics and Statistics Behind Machine Learning Algorithms.

Work With Real Data & Implement With Python.

Daily Assignment for Students & Live Projects.

Facebook Group to Discuss Any Topic Related to The Course or DATA SCIENCE.

After Completing the Course, We Will Provide You the Certificate.

Life-time Support For All Students.

Join: [www.facebook.com/groups/StudyMart](https://www.facebook.com/groups/StudyMart) , Visit: [www.aiQuest.org](http://www.aiQuest.org) & Subscribe: [www.youtube.com/studymart](https://www.youtube.com/studymart)

Module: 01	
Class 01	<p>Important Discussion on:</p> <ul style="list-style-type: none"> <li>▪ What is Data Science?</li> <li>▪ What is Machine Learning?</li> <li>▪ Data Science Venn Diagram.</li> <li>▪ Differences between Data Science, Machine Learning and Deep Learning.</li> <li>▪ Why Python for Data Science.</li> <li>▪ Python vs R.</li> <li>▪ Future of Data Science.</li> <li>▪ Why Machine Learning so popular?</li> <li>▪ Types of Learning in ML.</li> <li>▪ Supervised Learning.</li> <li>▪ Unsupervised Learning.</li> <li>▪ Supervised vs Unsupervised.</li> <li>▪ All about ML Algorithms.</li> <li>▪ Data Science Job Market.</li> </ul>
Class 02	<p>Software Installation:</p> <ul style="list-style-type: none"> <li>▪ Python</li> <li>▪ Jupyter Notebook</li> </ul> <p>Basic Python:</p> <ul style="list-style-type: none"> <li>▪ Input / Output Functions</li> <li>▪ Variables</li> </ul> <p>Data Structures: -</p> <ul style="list-style-type: none"> <li>▪ Python Data Structures</li> <li>▪ Lists</li> <li>▪ Tuples</li> </ul>

Module: 02	
Class 03	<p><i>Data Structures: -</i></p> <ul style="list-style-type: none"><li>▪ <i>Sets</i></li><li>▪ <i>Dictionaries</i></li><li>▪ <i>Data Frame</i></li></ul> <p><i>Loop &amp; Condition:</i></p> <ul style="list-style-type: none"><li>• <i>Loops (for, while)</i></li><li>• <i>Python Conditions (if,elif,else)</i></li></ul> <p><i>Discussion on Important Libraries: -</i></p> <ul style="list-style-type: none"><li>▪ <i>NumPy</i></li><li>▪ <i>Pandas</i></li><li>▪ <i>Vaex</i></li><li>▪ <i>Matplotlib</i></li><li>▪ <i>Seaborn</i></li><li>▪ <i>Scikit Learn</i></li><li>▪ <i>Keras</i></li><li>▪ <i>Tensorflow</i></li><li>▪ <i>Pytorch</i></li></ul>

## Class 04

### All About Single Variable Linear Regression: (Class - 1)

- What is Linear Regression?
- Uses of Linear Regression in Real Life.
- Straight Line
- Curve Line
- Slope
- Intercept
- Math: In Depth Intuition of Linear Regression
- Cost Function
- Lose Function
- Mean Absolute Error (MAE)
- Mean Squared Error (MSE)
- Minimizing the Cost: Gradient Decent Algorithm
- Create Data Set in CSV Format
- Analysis Data with Matplotlib
- Implement Single Variable Linear Regression with Python and Real Dataset
- Future Value Prediction
- Assignment (Real Data Set)

Module: 03	
Class 05	<p>Feature Engineering: (Class – 01)</p> <ul style="list-style-type: none"> <li>▪ Different Types of Variables</li> <li>▪ Work with Categorical Variables</li> <li>▪ Measure of Central Tendency-</li> <li>▪ Mean</li> <li>▪ Median</li> <li>▪ Mode</li> <li>▪ Theory of One Hot Encoding</li> <li>▪ One Hot Encoding with Python</li> <li>▪ Theory of Label Encoding</li> <li>▪ Label Encoding with Python</li> <li>▪ Theory of Ordinal Encoding</li> <li>▪ Ordinal Encoding with Python</li> <li>▪ Mean or Target Encoding</li> <li>▪ Mean or Target Encoding with Python</li> <li>▪ Assignment (Real Data Set)</li> </ul>
	<p>Feature Engineering: (Class – 02)</p> <ul style="list-style-type: none"> <li>• What is Feature Scaling?</li> <li>• Techniques of Feature Scaling in Machine Learning</li> </ul>

<p>Class 06</p>	<ul style="list-style-type: none"> <li>• Theory of Normalization</li> <li>• Normalization with Python</li> <li>• Standardization</li> <li>• Standardization with Python</li> <li>• Theory of Robust Scaler</li> <li>• Robust Scaler with Python</li> <li>• Theory of Logarithmic Transformation</li> <li>• Logarithmic Transformation with Python</li> <li>• Theory of Reciprocal Transformation</li> <li>• Reciprocal Transformation with Python</li> <li>• Assignment (Real Data Set)</li> </ul>
-----------------	--

Module: 04	
<p>Class 07</p>	<p>All About Multiple Variable Linear Regression: (Class - 2)</p> <ul style="list-style-type: none"> <li>▪ Math Behind Multiple Variable Linear Regression</li> <li>▪ Handle Missing Values with Python (Mean &amp; Median)</li> <li>▪ Implement Multiple Variable Linear Regression with Python and Real Dataset</li> <li>▪ What is R Squared Value</li> <li>▪ Implement R Square with Python</li> </ul>

	<ul style="list-style-type: none"> <li>▪ <i>Simple ML Project: Future Profit Prediction Based on Previous Data</i></li> <li>▪ <i>Introduction to Kaggle.com &amp; How to Download and Use Data Set from Kaggle.com</i></li> <li>▪ <i>Assignment (Real Data Set)</i></li> </ul>
Class 08	<p><i>Introduction to Classification Algorithms &amp; All about Decision Tree:</i></p> <ul style="list-style-type: none"> <li>• <i>Basic Logarithmic Operations.</i></li> <li>• <i>All about Tree.</i></li> <li>• <i>What is Decision Tree Algorithm?</i></li> <li>• <i>What is Entropy in Decision Tree?</i></li> <li>• <i>What is Information Gain?</i></li> <li>• <i>What is Gini Index?</i></li> <li>• <i>In Depth Mathematics Behind Decision Tree.</i></li> <li>• <i>Implementation of Decision Tree with Python.</i></li> <li>• <i>Visualize and Download Tree.</i></li> <li>• <i>Assignment (Real Data Set)</i></li> </ul>

Module: 05	
Class 09	<p>Result Analysis:</p> <ul style="list-style-type: none"> <li>• Theory of Confusion Matrix.</li> <li>• Confusion Matrix with Python.</li> <li>• Accuracy.</li> <li>• Precision.</li> <li>• Recall.</li> <li>• F1-Measure.</li> <li>• Specificity.</li> <li>• AUC Curve.</li> <li>• ROC Curve.</li> <li>• Assignment (Real Data Set).</li> </ul>
Class 10	<p>All about Ensemble Algorithms:</p> <ul style="list-style-type: none"> <li>• What are Ensemble Techniques in Machine Learning?</li> <li>• Types of Ensemble Techniques.</li> <li>• Theory of Random Forest.</li> <li>• In Depth Mathematics Behind Random Forest.</li> <li>• Random Forest with Python.</li> <li>• Decision Tree Vs Random Forest.</li> </ul>

	<ul style="list-style-type: none"> <li>• <i>Simple ML Project: Customer Churn Prediction with Python &amp; ML.</i></li> <li>• <i>Assignment (Real Data Set).</i></li> </ul>
--	---

Module: 06	
Class 11	<p>Logistic Regression:</p> <ul style="list-style-type: none"> <li>• What is Logistic Regression?</li> <li>• What is Sigmoid Function?</li> <li>• In Depth Mathematics Behind Logistics Regression Algorithm.</li> <li>• Logistic Regression with Python</li> <li>• Linear Regression Vs Logistic Regression</li> <li>• <i>Simple ML Project: Heart Attack Prediction with Python &amp; ML</i></li> <li>• <i>Assignment (Real Data Set)</i></li> </ul>

Class 12	<p>Feature Engineering: (Class – 03)</p> <ul style="list-style-type: none"> <li>• What is Feature Selection in Machine Learning?</li> <li>• Theory of Principle Component Analysis.</li> <li>• Principle Component Analysis with Python.</li> <li>• Different Types of Feature Selection Methods.</li> <li>• Theory of Chi Square Test.</li> <li>• Chi Square Test with Python.</li> <li>• Select KBest.</li> <li>• Select kBest with Python.</li> <li>• Correlation Matrix.</li> <li>• Correlation Matrix with Heatmap.</li> <li>• Assignment (Real Data Set).</li> </ul>
----------	--

Module: 07	
Class 13	<p>Feature Engineering: (Class – 04)</p> <ul style="list-style-type: none"> <li>• What is Feature Extraction Techniques?</li> <li>• Bag of Words Model in NLP.</li> <li>• What is Count Vectorizer?</li> <li>• Count Vectorizer with Python.</li> <li>• What is Tfidf Vectorizer?</li> </ul>

	<ul style="list-style-type: none"> <li>• <i>Tfidf Vectorizer with Python.</i></li> <li>• <i>What is Hashing Vectorizer?</i></li> <li>• <i>Hashing Vectorizer with Python.</i></li> <li>• <i>What is Word2vec?</i></li> <li>• <i>Word2vec with Python.</i></li> <li>• <i>Countvectorizer vs Tfidfvectorizer vs Hashing</i></li> <li>• <i>Uses of Vectorizer in NLP.</i></li> <li>• <i>Use of Natural Language Toolkit in NLP (NLTK)</i></li> <li>• <i>Assignment (Real Data Set)</i></li> </ul>
<p>Class 14</p>	<p><i>Important Statistical Analysis:</i></p> <ul style="list-style-type: none"> <li>• <i>Hypothesis Testing (Type 1 &amp; Type 2 Error.</i></li> <li>• <i>What is Analysis of Variance (ANOVA)?</i></li> <li>• <i>Example of ANOVA Test.</i></li> <li>• <i>What is T-Test?</i></li> <li>• <i>Example of T Test.</i></li> <li>• <i>ANOVA Vs T-Test.</i></li> <li>• <i>P Value, T-test, ANOVA When to Use What, Implementation with Python.</i></li> <li>• <i>Z Score Statistics.</i></li> <li>• <i>All About Correlation Analysis.</i></li> <li>• <i>Normal Distribution.</i></li> </ul>

Module: 08	
Class 15	<p><i>All about Cross Validation:</i></p> <ul style="list-style-type: none"> <li>• <i>What is Cross Validation in Machine Learning?</i></li> <li>• <i>Cross Validation Techniques.</i></li> <li>• <i>Theory of K Fold Cross Validation.</i></li> <li>• <i>Hold Out Cross Validation</i></li> <li>• <i>K-Fold Cross Validation</i></li> <li>• <i>Leave One-Out Cross Validation (LOOCV)</i></li> <li>• <i>Stratified K Fold Cross Validation</i></li> <li>• <i>Train Test Split Vs K Fold CV.</i></li> <li>• <i>Assignment (Real Data Set).</i></li> </ul>
Class 16	<p><i>All about K-Nearest Neighbors:</i></p> <ul style="list-style-type: none"> <li>▪ <i>What is KNN Algorithm?</i></li> <li>▪ <i>Euclidean Distance Formula.</i></li> <li>▪ <i>KNN for Classification.</i></li> <li>▪ <i>KNN for Regression.</i></li> <li>▪ <i>In Depth Mathematics Behind K-Nearest Neighbors (KNN) Algorithm.</i></li> <li>▪ <i>KNN-Regressor vs KNN-Classifier.</i></li> <li>▪ <i>Implementing KNN with Python</i></li> <li>▪ <i>Assignment (Real Data Set)</i></li> </ul>

Module: 09	
Class 17	<p>All about Naïve Bayes:</p> <ul style="list-style-type: none"> <li>• What is Bayes Theorem?</li> <li>• Statistics &amp; Probability</li> <li>• Statistics &amp; Probability with Python</li> <li>• Naïve Bayes Algorithm</li> <li>• Naïve Bayes Algorithm with Python</li> <li>• Naïve Bayes for Text Classification</li> <li>• Gaussian NB, Bernoulli NB, MultiNomial NB</li> <li>• <b>Simple ML Project:</b> Spam Comments Classification with Python</li> <li>• <b>Assignment (Real Data Set)</b></li> </ul>
Class 18	<p>All about Support Vector Machine:</p> <ul style="list-style-type: none"> <li>• Theory of Support Vector Machine (SVM) in Machine Learning.</li> <li>• Hyperplanes and Support Vectors.</li> <li>• Math Behind SVM.</li> <li>• SVM Implementation with Python.</li> <li>• <b>Assignment (Real Data Set)</b></li> </ul>

Module: 10	
Class 19	<p>Cluster Algorithms:</p> <ul style="list-style-type: none"> <li>• What is Unsupervised Learning?</li> <li>• Types of Clusters.</li> <li>• Theory of K-Means Cluster Algorithm.</li> <li>• Single &amp; Multiple Variable Cluster.</li> <li>• K-Means Cluster with Python.</li> <li>• Hierarchical Clustering.</li> <li>• Optimal Number of Cluster Selection.</li> <li>• Elbow Method.</li> <li>• Elbow Method with Python.</li> <li>• <i>Simple ML Project: Market Basket Analysis.</i></li> <li>• <i>Assignment (Real Data Set)</i></li> </ul>
Class 20	<p>Neural Network:</p> <ul style="list-style-type: none"> <li>• All about Neural Network</li> <li>• Tensorflow vs Pytorch</li> <li>• What is Deep Learning?</li> <li>• Types of Neural Network</li> <li>• What is Neuron?</li> <li>• Human Brain Vs Artificial Neuron</li> </ul>

	<ul style="list-style-type: none"> <li>• <i>Single Layer Perceptron</i></li> <li>• <i>Multiple Layer Perceptron</i></li> <li>• <i>How ANN Works?</i></li> </ul>
--	---

Module 11	
Last Class 21 (Guidelines)	<p><i>Guidelines:</i></p> <ul style="list-style-type: none"> <li>• <i>Scope of Higher Studies in Data Science.</i></li> <li>• <i>Guide to be a Good Programmer.</i></li> <li>• <i>Sharing Experience for Data Science Journey.</i></li> <li>• <i>Machine Learning for Future Research.</i></li> <li>• <i>R for Data Science.</i></li> <li>• <i>Kaggle Competitions.</i></li> <li>• <i>ML Jobs, Resume &amp; Salary.</i></li> <li>• <i>ML Interview Questions 2021.</i></li> </ul>
